

QUANTUM NIFTY ETF

An Open Ended Scheme Replicating / Tracking Nifty 50 Index

Investment Objective : The investment objective of the scheme is to invest in stocks of companies comprising Nifty 50 Index and endeavour to achieve return equivalent to Nifty by "Passive" investment. The Scheme will be managed by replicating the index in the same weightage as in the Nifty 50 Index with the intention of minimizing the performance differences between the scheme and the Nifty 50 Index in capital terms, subject to market liquidity, costs of trading, managing expenses and other factors which may cause tracking error.

^^ **Note:** Tracking Error is calculated on Annualised basis using 3 years history of daily returns.

Definitions

Tracking Error is a measure of how closely a fund follows the index to which it is benchmarked. The more passively the fund is managed, the smaller the tracking error. In the case of Exchange Traded Funds, the lower the Tracking Error, the better.

Portfolio Turnover Ratio is the percentage of a funds assets that have changed over the course of a year.
