

Quantum Gold Savings Fund

(Fund of Fund – Domestic: An Open Ended Fund of Fund Scheme Investing in Quantum Gold Fund)

1 QGSF helps diversify your money in gold, an important tool for diversification.

2 QGSF enables investments in gold through SIP or STP of as little as ₹500/month.

3 QGSF does away with the need to open a demat account as is the case with Gold ETFs.

4 QGSF does not suffer from gold-related problems like storage and theft as the fund house takes care of all risks of storage and safety for a minimal expense ratio.

5 QGSF ensures quality of gold is up to the mark as it invests in Quantum Gold Fund where the gold is sourced from London Bullion Market Association approved refiners.

5 reasons to invest in QGSF

Current Expense Ratio (w.e.f June 1, 2018)	Direct Plan: 0.06% Regular Plan: 0.18%
Benchmark	Domestic Price of Gold
Minimum Investment amount	₹500

Quantum Gold Savings Fund - QGSF is an open ended Fund of Fund scheme that invests in units of the Quantum Gold Fund (ETF), which in turn invests in physical gold. It is ideal for investors looking to add Gold under their current portfolio. Investors who do not have a demat account and want to invest in Gold ETFs, could consider this as their investment option.

The Quantum Gold Savings Fund also provides investors with a simple way to regularly invest in gold through Systematic Investment Plans. QGSF gives Convenience through SIP facility.

Systematic Investment Plan (SIP) allows you to start investing in the Quantum Gold Savings Fund for as little as ₹500/- per month. SIPs help you to invest in a disciplined manner and thus generate wealth over the long term.

You can invest through the regular investment process without holding or opening a Demat account.
